MIAMI POLICE DEPARTMENT

Date: September 25, 2019

Subject: PRECAUTIONARY INFORMATION

Just recently, we learned that telephone calls have been made by unknown persons posing as public and police officials. Those callers have requested monies and personal information from members of the public. There are no officials, nor public or police that will be asking for personal information, withdrawals of monies from any accounts or anything related to that matter. Everyone should be aware that this is a scam. Anyone who has been victimized should immediately contact their local police department and file a report.
